Oladipo Ajibawo

Senior Project Manager | IT, Telecoms & Infrastructure Programmes

Derby, UK | ajibawo.oladipo@gmail.com | linkedin.com/in/ajibawooladipo | oluyemisiajibawo.github.io

Open to relocation within the UK | Permanent or contract

PROFILE

Senior Project Manager with 12+ years delivering IT, telecoms and energy infrastructure programmes in the UK and Nigeria, including a £200M+ programme portfolio and 3,000+ telecom sites at American Tower Corporation. I run programmes from business case and bid through to handover and post-implementation review, with tight commercial control, clear governance and reporting that senior leaders can act on. PMP and PRINCE2 Practitioner, and an ISO 27001:2022 Lead Auditor with an MSc in Cyber Security (Distinction), so risk, controls and audit evidence are built into delivery from the start.

CORE SKILLS

- **Delivery:** Waterfall, Agile/Scrum, Kanban, PRINCE2, hybrid and stage-gate governance; critical path scheduling, WBS, project charters and PIDs
- **Commercial:** Business cases, bid management, Capex/Opex budgets, milestone-based vendor payments, variance control
- **Governance:** PMO setup, RAID logs, risk and change control, stakeholder mapping, post-implementation reviews, ISO 27001
- **Leadership:** Line management of coordinators, virtual teams of 50+, supplier and contractor management, executive reporting
- **Tools:** MS Project, Jira, Confluence, Smartsheet, Power BI, Advanced Excel, Visio, SharePoint, Salesforce, Huawei U2000, Microsoft Copilot

PROFESSIONAL EXPERIENCE

Project Manager

Apr 2025 – Present

Mcjay Recruitment Consultancy Ltd — London, UK

- Redesigned the end-to-end recruitment pipeline for 100+ healthcare professionals, introducing PMO tracking dashboards and standardised screening that cut average time-to-hire by 15%.
- Managed the mandatory training and certification lifecycle for 245 partners and candidates, achieving 100% compliance with CQC and DBS standards by treating regulatory changes as project milestones.
- Coordinated 24/7 staffing across 15+ NHS hospital sites, achieving a 92% shift fill rate for dementia, palliative and emergency care services.
- Led an internal project to modernise candidate matching, improving placement accuracy by 10% and saving 5+ hours a week through automation.

Project Manager

Nov 2021 – Feb 2025

American Tower Corporation (ATC) — Lagos, Nigeria

- Directed planning and delivery of 500+ Base Transceiver Station (BTS) sites under nationwide modernisation frameworks, leading a virtual team of 50+ across engineering, vendors and field operations, managing Capex and Opex budgets of up to £160,000 per site, and line-managing project coordinators and admin staff.
- Wrote the business case for adding wind and solar generation to 500 telecom sites; it was approved and reduced diesel generator runtime by 35%.
- Ran bid management for turnkey site-build packages covering civil works, solar and grid installation, building the costed model, scope definition and schedule basis for evaluation and award.
- Controlled vendor payments on a 50/40/10 milestone structure, releasing the final 10% only after scope validation confirmed delivered works matched the contract.
- Held formal approval of negative variance against project revenue, profit and schedule, and ran the sales-to-projects handover so project plans were accurate from day one.

- Led the nationwide rollout of smart grid systems, grid retrofits and Grid as a Service across 1,000 sites, prioritising resources across 15 concurrent suppliers and improving energy efficiency by 30% while reducing Opex by 22%.
- Produced critical path schedules, managed construction and site handover through snag lists and defect close-out, and closed projects with formal post-implementation reviews.

PMO and Network Analyst Mar 2017 – Oct 2021
American Tower Corporation (ATC) Lagos, Nigeria

- Coordinated national programmes covering 1,500+ tower upgrades and 200+ new site builds under PMO governance, accelerating site readiness by 12%.
- Built executive dashboards in Power BI and Smartsheet consolidating 40+ active projects for COO-level reporting, cutting PMO reporting time by 35%.
- Introduced structured vendor performance appraisals across engineering and EPC partners, raising SLA compliance from 82% to 94%.
- Managed access control for 10,000+ electronic locks nationwide and resolved 95%+ of escalated mobile network operator issues within SLA, using Huawei U2000 and Salesforce case management.

IT Project Manager Jun 2014 – Dec 2016
Scenic International Group Ltd London, UK (remote)

- Delivered a £500K+ portfolio of IT infrastructure and SaaS projects, replacing legacy platforms with NetSuite ERP, Boomi and MuleSoft integrations, Azure, Microsoft 365, telephony and CRM, while maintaining ISO 27001 compliance.
- Ran 5 to 7 concurrent workstreams under PRINCE2 with hybrid Agile delivery, leading cross-functional teams of 10 to 15 and achieving 98% on-time delivery.
- Built ISO 27001 controls into each workstream's acceptance criteria and resolved 85%+ of critical risks before launch.

Earlier career 2010 – 2015
University of Sunderland · NYSC · Lafarge Africa Plc UK and Nigeria

- Student Support Assistant, University of Sunderland (part-time); Physics and Computer Science Instructor, NYSC; Electrical Engineering Intern, Lafarge Africa Plc, supporting maintenance projects that cut plant downtime by 20%.

CERTIFICATIONS

- Project Management Professional (PMP), Project Management Institute
- PRINCE2 7 Foundation and Practitioner, PeopleCert
- ISO/IEC 27001:2022 Lead Auditor, Mastermind Assurance
- CompTIA Security+ ce; ISC2 Certified in Cybersecurity (CC)
- Scrum Master Accredited Certification (SMAC), International Scrum Institute
- CITB Health, Safety and Environment Test (Managers and Professionals)
- **Memberships:** Project Management Institute (PMI); Association for Project Management (APM), Student Member
